

ICSREE 2024

2nd International Conference on Sustainable
Renewable, and Energy Efficiency

Pulse Grande Hotel Putrajaya, MALAYSIA

9:00 AM - 4:30 PM

Sustainable Futures through Renewable Energies

Journal partners:

- Interactions (e-ISSN: 3005-0731)
- International Journal of Minerals, Metallurgy and Materials (e-ISSN: 1869-103X)
- International Journal of Renewable Energy Development (e-ISSN: 2716-4519)
- UKM's Journal of Engineering (e-ISSN: 2289-7526)

Conference Scopes*

- Renewable Energies
 - Solar photovoltaic and system
 - Solar thermal technology
 - Solar fuel
 - Biomass and bio-energy
 - Wind energy technology
 - Hydropower
 - Microgrid system
 - Nuclear technology
 - Hybrid energy system
- Energy Policies and Economics
 - Carbon trading
 - Carbon tax
 - Circular economy
 - Energy policy
- Energy digitalization
 - AI in energy sector
 - Internet of Energy (IoE)
 - Smart grid and distributed energy system
 - Smart city and mobility
- Energy Efficiencies and Conservations
 - Energy management
 - Low energy architecture
 - Renewable system integration
 - Sustainable city
- Social and environmental impacts
 - Community engagement and education
 - Climate change
- Advanced Materials
 - Material for energy conversion and storage
 - Nanomaterial and technology
 - Hydrogen technology
 - Carbon capture and storage

*The sub-scope topics included are not limited to

CONFERENCE FEE

RM3,500

malaysiaGBC Member

RM4,000

Non-Member

*inclusive 8% sst

Participants will receive a presentation slot to present to researchers and obtain prospects from postgraduate students from various universities

CPD Points Applied:
GBI, MBOT, LAM
